

3857 VM180 lifting bath tubs

Project supervisor:
Fred Pinkerton, Conveyerail Systems Ltd, Canada
Project number: 3857
Project engineer: Mikael Kayser, TAWI AB
Industry: Sanitary wear manufacturer
Lifting: Bath tubs
Used with: VacuEasylift VM180
Max capacity, this version: 80 kg
VacuMove/VacuEasylift VM180 vacuum lifter is used to lift the bath tubs from manufacturing and into carton cases in packaging. Another facility uses the same solution in the testing department, to lift massage tubs to and from testing machinery. The suction foot is the standard 610680 (yoke 800mm, 2x dia 200 mm) see below, on a tube extension 510 mm.
